\$0.29 per sachet plus \$140 setup per product.

We can do 6 different designs - 5,000 each, 10-14 working days from approved artworks

RGB Colour Printing from Overseas

We can place orders with an overseas supplier for quantities of 50,000 units and above.

The unit cost can range from \$0.18 to \$0.24, depending on the number of colours required and the sachet's size.

Import options include:

Sea freight: estimated transit time of 8–12 weeks

Air freight: estimated transit time of 3–4 weeks, with additional freight costs

A more cost-effective option would be to airfreight an initial smaller quantity of approximately 5,000–12,000 units, with the remaining balance shipped by sea. This would help minimise air freight costs while ensuring earlier stock availability.

Mini Tubes

Pricing for mini tubes and travel size products filling – Please get a quote

Pricing for Privet/white Label Manufacturing – Please get a quote

All prices quoted exclude GST, freight, product costs, transportation costs, and insurance for goods while in transit or storage.
